

> IN ALLIANCE WITH OTB

High-quality, lightweight materials work together to create a boot that performs like no other on long marches as well as keeping you comfortable in high desert temperatures. The DesertLite will be your boot of choice for all desert footwear needs. Including The Abyss II 6" is a second generation water-based boot designed for underwater and above-water operations, an update to the original suite of popular OTB water boots. With its patent-pending outsole design, the boot features side draining ports allowing for instant water evacuation, helping the boot to dry in record time. With its quick-drying upper sporting water-friendly synthetics and open mesh, the Abyss II provides unsurpassed breathability and serious comfort
